

YASHIKA SHAKYWAL

Rajasthan, India | yashika8690@gmail.com | [linkedin](#) | [Portfolio](#) | [github](#)

PROFESSIONAL SUMMARY

BCA student with hands-on experience in Full Stack Development and AI-powered applications. Skilled in building scalable web applications using React, FastAPI, MongoDB, and integrating modern AI technologies such as Retrieval-Augmented Generation (RAG), FAISS, LangChain, and LLM APIs. Strong understanding of frontend and backend development, REST APIs, database management, and deployment workflows. Passionate about problem-solving, continuous learning, and creating impactful software solutions while seeking opportunities to contribute as a Software Developer or Full Stack Developer.

TECHNICAL SKILLS

- **Front-End:** HTML5, CSS3, JavaScript — building responsive, user-friendly interfaces
- **Back-End:** Python, FastAPI, Streamlit, RESTful API design & integration, JWT Authentication
- **Databases:** MongoDB (NoSQL), SQLite (relational/SQL), ChromaDB (vector search)
- **Version Control & Tools:** Git, GitHub, Postman, Linux Shell Scripting
- **Core CS:** Data Structures & Algorithms fundamentals, problem-solving
- **AI/ML:** LangChain, Sentence Transformers, Google Gemini API, Hugging Face Inference API, Retrieval-Augmented Generation (RAG), PyMuPDF
- **Other:** Power BI, Microsoft Excel (Advanced Formulas & Functions)

PROJECTS

TrackerPoint: Job Application Tracking System

React.js · FastAPI · MongoDB · REST API · JWT Authentication

- Developed a full-stack job application tracking system that enables users to manage, organize, and monitor job applications through an intuitive dashboard.
- Implemented secure JWT-based authentication, CRUD operations, application status tracking, search and filtering, and MongoDB integration to streamline the job application management process.

PDF-RAG Assistant: AI-Powered Document Question Answering System

FastAPI · FAISS · LangChain · Sentence Transformers · Groq API

- Developed a Retrieval-Augmented Generation (RAG) application that enables users to upload PDF documents and ask natural language questions with context-aware answers.
- Implemented document parsing, text chunking, FAISS-based vector search, and Groq LLM integration to deliver accurate responses with page-level citations.

Smart Cafe Finder

Python · FastAPI

- Developed a back-end application with clean, scalable REST API design to help users discover cafes.

EXPERIENCE

Data Analyst Intern — Elevate Labs

Jun 2025 – Jul 2025 | Rajasthan, India

- Cleaned and transformed large datasets using Python (pandas, NumPy) and SQL to support business analysis and EDA.
- Built interactive Power BI/Excel dashboards to track KPIs and support data-driven decision-making.

Data Analyst Intern — Samatrix Consulting Private Limited

Jun 2025 – Jul 2025 | Rajasthan, India

- Collected, cleaned, and analyzed datasets using Python and SQL, improving data quality for downstream reporting.
- Automated recurring reports, streamlining workflows and improving reporting accuracy and turnaround time.

EDUCATION

Bachelor of Computer Applications (BCA), Information Technology

Career Point University, Kota | 2023 – Present

CERTIFICATIONS

- Artificial Intelligence Foundations: Machine Learning
- Excel: Advanced Formulas and Functions
- Tata — GenAI Powered Data Analytics Job Simulation
- Python Essentials 1
